The Anatolian Journal of Family Medicine is published in accordance with the principles of independent, unbiased, and double-blinded peer review. It publishes original research related to clinical, experimental, and basic sciences on family medicine and primary health care, editorial comments, reviews covering current issues, educational articles, scientific letters, case reports, letters to the editor, original images, articles on history of medicine and publication ethics, diagnostic puzzles, and interviews deemed appropriate for the purposes and scope of the journal. Three issues are released every year in April, August and December. The language of publication is English.

The journal evaluates only the manuscripts submitted through its online submission system on the web site http://www.anatolijf.org. Manuscripts sent by other means will not be accepted.

The primary conditions for the acceptance of manuscripts for publication are originality, scientific value and citation potential.

**PUBLISHING FEE**

The Anatolian Journal of Family Medicine is an open access journal. Manuscripts are available on the journal web page at no cost. The Anatolian Journal of Family Medicine does not charge any article submission or processing fees.°

**STATEMENTS AND GUIDELINES**

**Statements**

- All statements and opinions expressed in the manuscripts published in The Anatolian Journal of Family Medicine reflect the views of the author(s). All liability for the advertisements rests with the appropriate organization(s). The Turkish Foundation of Family Medicine, the Editor-in-Chief and KARE Publishing do not accept any responsibility for articles and advertisements.

- The manuscripts submitted to the journal, except abstracts, presentations, reviews and parts of theses, should not have been accepted and published previously elsewhere in electronic or printed format. Manuscripts evaluated and rejected by other journals must mention any previous submissions and supply reviewer’s reports. This will help to accelerate the evaluation process. If the submitted manuscript has been previously presented at a meeting, the name, date, city and country must be specified.

- The authors transfer all copyrights of the manuscript in the framework of national and international regulations to the Turkish Foundation of Family Medicine as of evaluation process. A Copyright Transfer Form signed by corresponding author in order must be submitted to the journal with manuscript. After acceptance of manuscript, all of authors must fill and sign Copyright Transfer form. A separate form for each manuscript will be submitted. Manuscripts submitted without a Copyright Transfer Form will not be accepted. In the case of rejection, all copyrights transfer to the authors again. Authors must confirm that they will not submit the work to another journal, publish it in the original or another language and allow a third party to use the manuscript without the written permission of the Turkish Foundation of Family Medicine.

- All contents are the authors’ responsibility. All financial liability and legal responsibility associated with the copyright of submitted tables, figures and visual materials protected by national and international laws rest with the authors. The authors take responsibility for any legal proceedings issued against the journal.

- Rejected manuscripts will not be returned except for artwork.

- To clarify scientific contributions and responsibilities and any conflict of interest issues relevant to the manuscript, all parts of the ‘Authors’ Contribution’ form must be completed by the corresponding author and the ICMJE Uniform Disclosure Form for Potential Conflicts of Interest must be completed online by all authors. Both forms should be included in the manuscript at the time of original submission.

**Ethics**

- All manuscripts will be vetted by the Editor-in-Chief’s Office for possible plagiarism and duplication. Sanctions will be imposed in accordance with the guidelines of the Committee on Publication Ethics (COPE) when non-ethical issues arise. The authors must obtain the permission of the copyright holder for non-original tables, figures, graphs, images and other visuals.

- The authors should acknowledge and provide detailed information on any contributors in kind and financial support given by any foundations, institutions and firms before references section.

- An ethics committee report prepared in conformity with the WMA Declaration of Helsinki – Ethical Principles for Medical Research Involving Human Subjects and the Guide for the Care and Use of Laboratory Animals is required to be submitted with experimental and clinical studies, drug trial studies and some case reports. Authors may be asked by the Editor-in-Chief’s Office for an ethics committee report or similar in other circumstances also.

- Manuscripts reporting the results of experimental studies must explain in detail all procedures which volunteer subjects and patients have undergone and a statement indicating that consent for the study has been obtained from all subjects should be included in the text. Animal studies should clearly specify how pain or discomfort has been relieved. We will be unable to accept research papers without this statement.

**PREPARATION AND SUBMISSION OF MANUSCRIPTS**

Manuscripts should be concise and clear.

Manuscript files should be prepared with Microsoft Office Word. Please format your manuscript as follows:

- Use Times New Roman style, 12 points, justified and double line spacing throughout (including reference list and figure legends).
- Leave 2 cm space from each edge of pages.
- Number all pages in the bottom-righthand corner, but do not use numbers for headings and subheadings.

- Define all abbreviations when first mentioned.
- Do not mention names and/or institutions of the authors within the main text except title page.

For further advice on manuscript preparation see the Guidelines published by the European Association of Science Editors.

The online submission system will direct authors during all stages of submission and provide necessary support for accelerating the submission process. A list of the files that should be supplied through the online submission system is provided below.

1. Title Page, 2. Main Text, 3. Tables, Graphs and Figures, 4. Copyright Transfer Form

**1. Title Page**

Information about the authors and their institutions should not be included in the main text, tables, figures or supplementary documents. The title page should include the names of the authors with their latest academic degrees, and the name of the department and institution, city and country where the study was conducted. If the study was conducted in several institutions, the affiliation of each author must be specified with symbols. The correspondence address should contain the full name of the corresponding author, postal and e-mail addresses, phone and fax numbers. If the content of the manuscript has been presented before, the name, date and place of the meeting must be noted. Disclosure of conflict of interest, institutional and financial support, author contributions and acknowledgments should be included on the title page.

**2. Main Text**

The manuscripts submitted to our journal are classified and evaluated according to the manuscript types stated below. During preliminary evaluation, the editors assess whether a manuscript’s format and sub-headings are prepared in accordance with the journal’s guidelines. Therefore, it is important that authors check the accuracy of the main text in terms of the following. Manuscripts should also be prepared according to STROBE criteria for observational studies, STARD criteria for accuracy studies of diagnosis, CONSORT criteria for randomized controlled trials.

**A. Manuscript Types**

- Original research
- Review
- Scientific letter
- Case report
- Original image
- Letter to the editor

**B. References**

**C. Special Terms and Conditions**

**A. Manuscript Types**

**Original Research**

- Title
- Structured Abstract: It should be structured with Objective, Methods, Results and Conclusion sections and should not exceed 500 words.
- Keywords: This section should contain a minimum of three and a maximum of six items in accordance with Medical Subject Headings (MeSH) terms prepared by the National Library of Medicine (NLM) and should be placed just below the abstract.
- Main Text: It should consist of Introduction, Methods, Results, Discussion, Limitations of the Study and Conclusion sections and should not exceed 5000 words excluding the references.
- References: The reference list should be provided following the Main Text. Limiting the number of references to 50 is usually sufficient.
- Tables, Figures and Images: They should be placed below the reference list and numbered according to their consecutive order in the main text.

**Statistical Analysis:**

- Statistical analysis should be conducted in accordance with the guidelines on reporting statistical data in medical journals.
- The software used for statistical analysis must be described. Data must be expressed as mean ± standard deviation when parametric tests are used to compare continuous variables. For non-parametric tests, data must be expressed as median (minimum-maximum) or percentiles (25th and 75th percentiles). In advanced and complex statistical analyses, relative risk (RR), odds ratio (OR) and hazard ratio (HR) must be supported by confidence intervals and p values.
- The outcomes of statistical analyses and interpretation of the results must be in evidence-based scientific language.

**Review**

- Reviews prepared by authors with extensive knowledge on a particular field, which has been reflected in international literature by a high number of publications and citations, are evaluated.
- The authors may be invited by the Editor-in-Chief. A review should be prepared in the format describing, discussing and evaluating the current level of knowledge or topic that is to be used in the clinical practice and it should guide further studies.
- Title
- Abstract: It should not include subheadings and should be limited to 250 words.
- Keywords: This section should contain a minimum of three and a maximum of six items in accordance with Medical Subject Headings (MeSH) terms prepared by the National Library of Medicine (NLM) and should be provided just below the abstract.
