

## EDITORIAL

---

Dear Researchers and Esteemed Readers,

It is with great pleasure that I extend a warm welcome to you on behalf of our esteemed journal “BAU Health and Innovation” in the field of health sciences. As an academic platform committed to the pursuit of knowledge and excellence, we are proud to present a comprehensive and multidisciplinary journal that embraces the diversity of health science research. Our journal, reflective of the visionary ethos of Bahcesehir University, stands as a candidate for scholarly discourse and innovation in the field of health sciences.

The core objective of the BAU Health and Innovation Journal is to enrich the international literature by presenting top-tier manuscripts within the domain of health sciences. Our goal is propelling the worldwide progression of health sciences, encourage cross-disciplinary conversations, and support evidence-based clinical methods aimed at improving patient well-being. To achieve this, we have assembled an esteemed advisory board comprising leading experts in health sciences from Türkiye and across the globe. Our journal, published exclusively in English, upholds the values of academic integrity and ethical publishing standards. As we look ahead to the future our ambition is to feature our journal in reputable international databases.

We invite all researchers and scholars to share your valuable ideas and pioneering research with our journal. Your contributions play a vital role in promoting collaboration across different fields and pushing the boundaries of health sciences. We welcome you to be part of our pursuit for excellence and innovation. Your ongoing interest and support are crucial in upholding the highest academic standards.

In conclusion we are excited about the possibilities that lie ahead and remain dedicated to providing a platform that fosters academic rigor and innovation. Together, let us propel the realms of health sciences into new dimensions of discovery and knowledge.

With utmost respect and warm regards,

**Sena Teber PT, MSc**
