JOURNAL OF DR. BEHÇET UZ CHILDREN'S HOSPITAL

2022
Volume: 12
Issue: 2

AIM AND SCOPE

Journal of Dr. Behcet Uz Children's Hospital is a peer-reviewed open-access official scientific publication of the Izmir Children's Health Society and Izmir Dr. Behcet Uz Children's Hospital. The publication frequency of the journal is 3 times a year (April, August, November). Journal of Dr. Behcet Uz Children's Hospital accepts publications in English as of 2020 and published electronically.

Aims and Scope

The journal of Dr. Behcet Uz Children's Hospital is devoted to the continuing education of national and international practicing pediatrics and pediatric surgeons, and to provide a forum for social and scientific communication in the field. Studies that emphasize these aims provide the basis for publication, including original articles, case reports, reviews, annual meetings' abstracts, letters to the editor, review of the recently published books, biographies, and social articles. The journal of Dr. Behcet Uz Children's Hospital accepts only invited review articles.

No fees are charged from authors for article submission, processing or publication.

The editorial and publication processes and ethical policies of the journal are shaped in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), World Association of Medical Editors (WAME), Council of Science Editors (CSE), Committee on Publication Ethics (COPE), European Association of Science Editors (EASE), and National Information Standards Organization (NISO). The journal is in conformity with the Principles of Transparency and Best Practice in Scholarly Publishing (doaj.org/bestpractice).

Editorial Policies are based on "Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journal (ICMJE Recommendations)" (2016, <http://www.icmje.org/>)

Open Access Policy

This journal provides immediate open and free access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

Open Access Policy is based on the rules of the Budapest Open Access Initiative (BOAI)

<http://www.budapestopenaccessinitiative.org/>. By "open access" to peer-reviewed research literature, we mean its free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited.

This work is licensed under a

Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 (CC BY-NC-ND) International License.

CC BY-NC-ND: This license allows reusers to copy and distribute the material in any medium or format in unadapted form only, for noncommercial purposes only, and only so long as attribution is given to the creator.

CC BY-NC-ND includes the following elements:

BY – Credit must be given to the creator

NC – Only noncommercial uses of the work are permitted

ND – No derivatives or adaptations of the work are permitted

Copyright Issues

The author(s) transfer(s) the copyright to their article to Journal of Dr. Behcet Uz Children's Hospital effective if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form); it also covers translation rights for all languages and countries.

After receiving and accept decision for publication, submissions must be accompanied by the "Copyright Transfer Statement". The form is available for download on the journal's manuscript submission and evaluation site. The copyright transfer form should be signed by all contributing authors and a scanned version of the wet signed document should be submitted.

Permission Requests

Permission required for use any published under CC-BY-NC-ND license with commercial purposes (selling, etc.) to protect copyright owner and author rights). Reproduction and reproduction of images or tables in any published material should be done with proper citation of source providing authors names; article title; journal title; year (volume) and page of publication; copyright year of the article.

Material Disclaimer

All rights of publication of all articles published in Journal of Dr. Behcet Uz Children's Hospital belongs to Izmir Dr. Behcet Uz Children's Hospital. No citation without reference could be done and none of the sections of this journal could be multiplied without permission. All opinions published in the journal belong to their authors.

Financial expenses of Journal of Dr. Behcet Uz Children's Hospital are covered by Izmir Dr. Behcet Uz Children's Hospital.

JOURNAL OF DR. BEHCET UZ CHILDREN'S HOSPITAL

2022
Volume: 12
Issue: 2

INSTRUCTIONS TO THE AUTHORS

Journal of Dr. Behcet Uz Children's Hospital is a double-blind peer-reviewed journal which has been started to be published in 2011.

Articles in the journal are published in content pages and article title pages, as classified according to their types (research, case report, short report, review, letter to editor etc.)

Journal of Dr. Behcet Uz Children's Hospital does not charge any article submission or processing fees, and reviews are prepared due to the invitation of editor.

All manuscripts submitted to the Journal of Dr. Behcet Uz Children's Hospital must be screened for plagiarism and proofreading by the authors' themselves.

Peer Review Process

The manuscripts sent to Journal of Dr. Behcet Uz Children's Hospital are firstly evaluated by the editor. Editor checks up every manuscript whether they are worth to evaluate or not, and assigns an assistant for each. If editor and the assistant find the manuscript worth to evaluate, they send it to two reviewers or one reviewer with one editorial board member for evaluation. The manuscript is not under evaluation if it does not require the evaluation of the reviewer or editorial board members because that it has no scientific value and not original, or it does not fit to the reader population. The author(s) should screen their article for plagiarism and share the suicide report with the journal. In addition to the plagiarism, proofreading responsibility lies with the authors.

Scientific and ethical responsibility of the articles belong to the writer, but copyright belongs to Journal of Dr. Behcet Uz Children's Hospital. The authors are responsible for the content and resources of the articles. The authors should send the certificate of approval (Copyright Transfer Form) with their articles which states that copyright is transferred to the journal. These certificate documents written by the authors means the writers declare their scientific responsibilities and guarantee that the study had never been published or not to be published in near future by another journal.

MANUSCRIPT TYPES

Original Research Articles: References and English summary are required (see writing preparation section). At most 5000 words (20 double spaced pages), 7 tables and/or figures, additionally abstract and references in English. Ethics committee approval should be added in the study.

Case Reports: For the manuscripts sent to this part, we are looking for the clinical cases that are infrequently reported in scientific literature previously, unreported clinical reflections or complications of a well known disease, unknown adverse reactions of known treatments, or case reports including scientific message that might trigger further new research, preferably. Case reports should include abstract, case and discussion. It should include 2000 words (8 double spaced pages), 15 or less references, three tables or pictures.

Abstract Reports: Researches with small numbers that have preliminary study data and findings which require further studies. References and English abstract required (see Manuscript Preparation section). At most 3000 words in length (8 double spaced pages), additionally English abstract, 15 or less references, 3 tables and/or figures. Ethics committee approval required.

Concepts: Clinical or non-clinical manuscripts about improvement of this field.

References and English abstract required. At most 4000 words (16 double spaced pages), additionally English abstract (each less than 150 words) and references must be included.

Review Articles: Extent investigation writings including latest national and worldwide literature about public health issues. Journal of Dr. Behcet Uz Children's Hospital publishes invited review articles. A contact with the editor should be provided before the submission of uninvited reviews. At most 5000 words (20 double spaced pages). There is no limitation about number of references. Related information is available in the following article; Burney RF, Tintinalli JE: How to write a collective review. *Ann Emerg Med* 1987;16:1402.

Evidence based Information: Articles that could answer to the problems of clinical and medical applications. The article should include these sections; clinical vignette, questions and problems, research and selection of the best evidence, detailed examination of the evidence and implementation of the evidence. At most 4000 words (15 double spaced pages), additional English abstract. Authors should also send the copies of the articles to the editor.

Letter to Editor: These are the articles that include opinions and solution advises about the medicine and public health issues, comments about the articles published in journal of Journal of Dr. Behcet Uz Children's Hospital or other journals. At most 1500 words (6 double spaced pages), additionally references should be included.

MANUSCRIPT SUBMISSION

Manuscript Submission Agreement: It is available in every new print Journal of Dr. Behcet Uz Children's Hospital, editorial of the journal and also found in the web site of the journal. It should be filled in all article submissions.

Cover Letter: Author, in this letter, should imply the short explanation of his research or writing, type of the study (random, double-blind, controlled etc.), the category it is sent for, whether it had been presented in a scientific meeting or not, in details. Additionally, the address, phone and fax numbers and e-mail address of the person for contact about the writing should be present at the lower pole of the letter.

The **ORCID** (Open Researcher and Contributor ID) number of the correspondence author should be provided while sending the manuscript. A free registration can create at <http://orcid.org>.

MANUSCRIPT PREPARATION

Articles should be typed in 12 pt (Times New Roman), doublespaced throughout with margins of 2.5 cm, and pages must be numbered on the right upper corner. Manuscripts must be in accordance with the International Committee of Medical Journal Editors: Uniform Requirements for Manuscripts Submitted to Biomedical Journals (<http://www.icmje.org/>). Original articles should not exceed 15 double spaced typewritten pages, and case reports should not exceed 10 pages. Articles should be typewritten in either "doc" or "txt" format and organized as follows: Title page: The title page should contain the article title, authors' names and complete affiliations, a running title not exceeding 40 characters and the address for manuscript correspondence including e-mail address and telephone and fax numbers. If the article was presented at a scientific meeting, authors should provide a complete statement including date and place of the meeting. Abstract and key words:

JOURNAL OF DR. BEHÇET UZ CHILDREN'S HOSPITAL

2022
Volume: 12
Issue: 2

INSTRUCTIONS TO THE AUTHORS

Original articles should contain English abstracts. Abstracts must be no longer than 250 words. The structured abstract should include objective, materials and methods, results and conclusions in original articles. Case reports should also include a structured abstract [objective, case report(s), and conclusion]. Abbreviations should not be used in the abstract.

The authors should list three to five key words or phrases taken from Index Medicus Medical Subject Headings (<http://www.nlm.nih.gov/mesh/MBrowser.html>).

Text: Original articles should be organized in four main headings: introduction, materials and methods, results, and discussion. Define abbreviations at first mention in the text and in each table and figure. If a brand name is cited, supply the manufacturer's name and address (city and state/country). Case reports should include the following identifiable sections: introduction, case report(s), and discussion. An "acknowledgement(s)" section may be added following these sections to thank those who helped the study or preparation of the article, if any. The acknowledgements are placed at the end of the article, before the references. This section contains statements of gratitude for personal, technical or material help, etc.

References should be provided at the end of the article, under the title "References" and should be numbered and listed according to their order in the text. They should be referred to in parentheses within the text. Complete author citation is required ("et al" is not acceptable). The author(s) are responsible for the accuracy of the references. Journal titles should be abbreviated according to Index Medicus. Refer to the "List of Journals Indexed in Index Medicus" for abbreviations of journal names, or access the list at <http://www.nlm.nih.gov/tsd/serials/lji.html>. Abbreviations are not used for journals not in the Index Medicus. Only published articles or articles "in press" can be used in references. Authors must add the DOI and/or PMID numbers to the end of each citation. Example of references are given below:

Online articles: Abood S. Quality improvement initiative in nursing homes: the ANA acts in advisory role. *Am J Nurs* (serial on the Internet). 2002 Jun (cited 2002 Aug 12); 102 (6): (about 3 p.). Available from: <http://www.nap.edu/books/0309074029/html/>.

Tables: Each table must be typed double-spaced on a separate page following the references. Tables should be numbered consecutively with Roman numerals in order of appearance in the text and should include a short descriptive title typed directly above and essential footnotes including definitions of abbreviations below. They should be self-explanatory and should supplement rather than duplicate the material in the text.

Figures: All figures should be numbered sequentially in the text with Arabic numbers and should be referred to in parentheses within the text. Art should be created/scanned and saved as either TIFF or JPEG format, submitted as a separate file, and not embedded in the text file. Electronic photographs, radiographs, CT scans, and scanned images must have a resolution of at least 300 dpi and 1200x960 pixels. If not obligatory any text typewritten on the figures should be avoided.

Figure legends: Include legends for all figures. Legends should appear on a separate page after the tables, should be brief and specific, and should include magnification and the stain used. Abbreviations and symbols used in the figures must be denoted in the legend.

References

References should be written in compliance with Vancouver style (see: <https://www.ncbi.nlm.nih.gov/books/NBK7256/>). Authors are responsible for the accuracy of the references. While writing references, the below-indicated rules should be attentively observed.

References cited in the text

References cited in the text should be numbered in order of their use in the text, and the list of references should be presented accordingly. The number of the reference should be indicated in parenthesis and as a superscript. If more than one reference is used, then a comma (,) should be placed between references.

Sample cited statements in the text:

Care provided by nurses is especially important in the diagnosis, and prevention of malnutrition, in the decreasing hospitalization period, and hospital costs.(9) Therefore the nurses are expected to have adequate information, equipment, and skill in the field of nutrition.(3,10,11)

Duerksen et al.(14) evaluated the knowledge level, and approaches of Canadian nurses concerning nutritional problems of inpatients. In their study, they indicated that nurses failed to evaluate nutritional state of the patients adequately, and effectively which was attributed to inadequate number of auxiliary personnel, time restraints, and missing documents.

Indicating references at the end of the text

At the end of the text, references should be written double-spaced on a separate paper. Titles of the journals should be abbreviated in accordance with the citation index which includes the journal that published the article (ie: Index Medicus, Medline, Pubmed, Web of Science, TR Dizin, etc.), and if available, DOI numbers should be absolutely added. For abbreviations of the titles of the journals, please see the list of the journals published by NLM in website (<http://bit.ly/2IJkey3>). If title of the journal is not contained in these lists, it should be written in full. If Vancouver format is employed in the website you used for references, then copy-pasting of the reference in your reference list is recommended. References

JOURNAL POLICY

Original Article: Articles which include new information and data should not have been printed in another scientific journal before or should not have been applied to any journal, to be printed. This limitation is not valid for the studies that have been presented as a summary in previous scientific meeting or congress.

More than One Author: All of the authors included in the article share the responsibility of the information and duties during the steps of preparation of the article.

Statistical Editor: All articles including statistical analysis should be consulted to a statistical consultant. One of the authors or someone other than authors who is experienced and licensed in statistics should take the responsibility of this analysis. The name of the person used for statistical analysis should be specified on the main page.

Random Controlled Studies: This journal favors these kind of studies.

Permissions: Any picture, table etc. in the article, if it has been published in any scientific journal or book before, a document must be provided regarding the availability of them.

Ethics Committee Approval: Authors should get the written approval forms from editor assessment board (research ethical board), if their study requires research on human and animals.

EVALUATION AND PUBLICATION PROCESS

Preliminary Evaluation: Journal applies blind preliminary assessment for all article types. All articles are examined by journal editor and the appropriate ones are sent to consultants (editor assistants) for preliminary assessment. The writings that are sent from the editor of journal directly to the writer can not be printed in Journal of Dr. Behçet Uz Children's Hospital. The duration period

JOURNAL OF DR. BEHÇET UZ CHILDREN'S HOSPITAL

2022
Volume: 12
Issue: 2

INSTRUCTIONS TO THE AUTHORS

between the application and the preliminary assessment time is maximum 15 days. Letter informing the status about writing is reported by editor to the author, in this period. The articles which are found inappropriate are not sent back.

All articles are assessed by editors regarding the journal writing rules and scientific contents. When necessary, required changes in the writing are reported to the author in a written letter by editors.

Manuscript Responsibility: Authors take all the responsibility of the information included in their printed articles. The journal takes no responsibility of the article. Authors take a copy of the printed article.

Publication Rights: The full text or a section of the article printed in journal, pictures or tables in the article can not be printed in another journal without information and written permission of the editor of Journal of Dr. Behcet Uz Children's Hospital.

Necessary Information: Journal editors can request the basic data about the article from the author to investigate, when necessary. Therefore, essentially the address and other communication data should exist on the main page.

Addition: Editorial board can make changes in the writing by taking permission of the authors. Editor and language editor are completely authorized about the language, spelling and references and similar subjects to be written as they are in Index Medicus.

After the article is sent to be published, none of the authors could be deleted from the list without the written permission by all other authors, and no new name could be added and the author order can not be changed as well.

Measurement units: The length, weight and volume units should be reported in metric system (meter, kilogram, liter) and decimal multiples of them. Temperature should be in Celsius degree and blood pressure be millimeters-Mercury (mmHg). Both local and international unit systems (SI, International System of Units) should be specified as measure units. Drug concentrations will be given as SI or mass unit, it may be given as an option in parenthesis.

Abbreviations and Symbols: Use only the standard abbreviations, non-standard abbreviations might be confusing for the reader. Abbreviations must be avoided in titles. Unless it is a standard measure unit, abbreviations should be open in the first writing and abbreviation in parenthesis should be given as well.

Acknowledgement(s): At the end of the writing, acknowledgement(s) section should be located before references. In this part, individuals participating the content, order and statistical analysis of data of article during its preparation might be mentioned.

Addition to References: Monotype rules have basically accepted an ANSI standard type adopted by American National Library of Medicine (NLM). Authors may apply to the website address of "

http://www.nlm.nih.gov/bsd/uniform_requirements.html " for seeing examples of citation in reference.

Journal names should be abbreviated as seen in Index Medicus. The "List of Journals Indexed" in Index Medicus, which is a yearly published list and which takes place in the January edition of Index Medicus as a list, might also be a reference to look. The list is also available at " <http://www.nlm.nih.gov> " website.

PEER REVIEW, PUBLICATION ETHICS AND MALPRACTICE STATEMENT

Peer-review

Editorial policies of the journal are conducted as stated in the rules recommended by the Council of Science Editors and reflected in the Uniform Requirements for Manuscripts Submitted to Biomedical Journals: Writing and Editing for Biomedical Publication (<http://www.icmje.org/>). Accordingly, authors, reviewers, and editors are expected to adhere to the best practice guidelines on ethical behavior contained in this statement.

Submitted manuscripts are subjected to double-blinded peer-review. The scientific board guiding the selection of the papers to be published in the journal consists of elected specialists of the journal and, if necessary, selected from national and international experts in the relevant field of research. All manuscripts are reviewed by the editor, section associate editors and at least three internal and external expert reviewers. All research articles are interpreted by a statistical editor as well.

Ethics

For the experimental, clinical and drug human studies, approval by ethical committee and a statement on the adherence of the study protocol to the international agreements (Helsinki Declaration revised 2008 (www.wma.net/policy/b3.html)) are required. In experimental animal studies, the authors should indicate that the procedures followed were by animal rights (Guide for the care and use of laboratory animals, www.nap.edu/catalog/5140.html), and they should obtain animal ethics committee approval. The Ethics Committee approval document should be submitted to the Journal of Dr. Behcet Uz Children's Hospital together with the manuscript.

The approval of the ethics committee, statement on the adherence to international guidelines mentioned above and that the patient's informed consent is obtained should be indicated in the 'Material and Method' section and is required for case reports whenever data/media used could reveal the identity of the patient. The declaration of the conflict of interest between authors, institutions, acknowledgement of any financial or material support, aid is mandatory for authors submitting a manuscript, and the statement should appear at the end of the manuscript. Reviewers are required to report if any potential conflict of interest exists between the reviewer and authors, institutions.

Plagiarism: To Republish whole or part of a content in another author's publication without attribution.

Fabrication: To publish data and findings/results that do not exist.

Duplication: Using data from another publication that includes republishing an article in different languages.

Salamisation: Creating multiple publications by supernaturally splitting the results of a study.

We disapprove of such unethical practices as plagiarism, fabrication, duplication, and salamisation and efforts to influence the review process with such practices as gifting authorship, inappropriate acknowledgements, and references.

Submitted manuscripts are also subjected to the evaluation of plagiarism, duplicate publication by automatic software. Authors are obliged to acknowledge if they published study results in whole or in part in the form of abstracts.

We use "iThenticate" to screen all submissions for plagiarism before publication.

A. DUTIES OF PUBLISHER:

Handling of unethical publishing behaviour

The publisher will take all appropriate measures to modify the article in question, in close cooperation with the editors, in cases of alleged or proven scientific misconduct, fraudulent publication, or plagiarism. This includes the prompt publication of an erratum, disclosure, or retraction of the affected work in the most severe case. Together with the editors, the publisher will take reasonable steps to detect and prevent the publication of articles in which research misconduct occurs and will under no circumstances promote or knowingly allow such abuse to occur.

Editorial Autonomy

Journal of Dr. Behcet Uz Children's Hospital is committed to ensuring the autonomy of editorial decisions without influence from anyone or commercial partners.

Intellectual Property and Copyright

Journal of Dr. Behcet Uz Children's Hospital protects the property and copyright of the articles published in the journal and maintains each article's published version of the record. The journal provides the integrity and transparency of each published article.

Scientific Misconduct

Journal of Dr. Behcet Uz Children's Hospital's publisher always takes all appropriate measures regarding fraudulent publication or plagiarism.

B. DUTIES OF EDITORS:

Decision on Publication and Responsibility

The editor of the journal keeps under control everything in the journal and strives to meet the needs of readers and authors. The editor is also responsible for deciding which articles submitted to the journal should be published and guided by the policies subjected to legal requirements regarding libel, copyright infringement, and plagiarism. The editor might discuss with reviewers while making publication decisions. The editor is responsible for the contents and overall quality of the publication. Editor ought to provide a fair and appropriate peer-review process.

Objectivity

Articles that are submitted to the journal are always evaluated without any prejudice.

Confidentiality

The editor must not disclose any information about a submitted article to anyone other than editorial staff, reviewers, and publisher.

Conflicts of Interest and Disclosure

The Editor of Journal of Dr. Behcet Uz Children's Hospital does not allow any conflicts of interest between the parties such as authors, reviewers and editors. Unpublished materials in a submitted article must not be used by anyone without the express written assent of the author.

PEER REVIEW, PUBLICATION ETHICS AND MALPRACTICE STATEMENT

Fundamental Errors in Published Works

Authors are obliged to notify the journal's editors or publisher immediately and to cooperate with them to correct or retract the article if significant errors or inaccuracies are detected in the published work. If the editors or publisher learn from a third party that a published work contains a material error or inaccuracy, the authors must promptly correct or retract the article or provide the journal editors with evidence of the accuracy of the article.

C. DUTIES OF REVIEWERS:

Evaluation

Reviewers evaluate manuscripts without origin, gender, sexual orientation or political philosophy of the authors. Reviewers also ensure a fair blind peer review of the submitted manuscripts for evaluation.

Confidentiality

All the information relative to submitted articles is kept confidential. The reviewers must not be discussed with others except if authorized by the editor.

Disclosure and Conflict of Interest

The reviewers have no conflict of interest regarding parties such as authors, funders, editors, etc.

Contribution to editor

Reviewers help the editor in making decisions and may also assist the author in improving the manuscript.

Objectivity

They always do objective judgment evaluation. The reviewers express their views clearly with appropriate supporting arguments.

Acknowledgement of Sources

Reviewers ought to identify a relevant published study that the authors have not cited. Reviewers also call to the editor's attention any substantial similarity or overlap between the manuscript and any other published paper of which they have personal knowledge.

D. DUTIES OF AUTHORS:

Reporting Standards

A submitted manuscript should be original, and the authors ensure that the manuscript has never been published previously in any journal. Data of the research ought to be represented literally in the article. A manuscript ought to include adequate detail and references to allow others to replicate the study.

Originality

The authors who want to submit their study to the journal must ensure that their study is entirely original. The words and sentences getting from the literature should be appropriately cited.

Multiple Publications

Authors should not submit the same study for publishing in any other journals. Simultaneous submission of the same study to more than one journal is unacceptable and constitutes unethical behaviour.

Acknowledgement of Sources

Convenient acknowledgement of the study of others has to be given. Authors ought to cite publications that have been efficient in determining the study. All of the sources that used the process of the study should be remarked.

Authorship of a Paper

Authorship of a paper ought to be limited to those who have made a noteworthy contribution to the study. If others have participated in the research, they should be listed as contributors. Authorship also includes a corresponding author who is in communication with the editor of a journal. The corresponding author should ensure that all appropriate co-authors are included in a paper.

Disclosure and Conflicts of Interest

All sources of financial support should be disclosed. All authors ought to disclose a meaningful conflict of interest in the process of forming their study.
