

Contributors

Bilge AR

Received her B.Sc degree in Architecture (2003), M.Sc (2006) and PhD degree (2014) in Architecture History from Istanbul Technical University. Currently working as an assistant professor in the same university. Her main fields of study are: Occupation years of Istanbul after WWI, Early Byzantine architecture, Ottoman architecture, and Ottoman museology.

Demet ARSLAN DİNÇAY

Demet Arslan Dinçay received her PhD degree from ITU, History of Architecture. She has been teaching at the Department of Interior Architecture, ITU since 2014. Her research interests are color and light in interior and accessibility. She has been covered a coordination role in a EU funded project since 2017

Dinçer AYDIN

He is working as a research assistant in Trakya University, Department of Architecture. He got his master's degree from Trakya University in 2017 and his PhD is still ongoing in the same university. He studies at issues about energy simulation, indoor environmental quality and sustainable construction management.

Ahmet BAŞ

Ahmet Baş studied his bachelor's degree in the Department of Urban and Regional Planning and master in Regional Planning in İTÜ than graduated in 2012. He worked as a specialist in the Regional Development Agency (KUDAKA) between 2010-2011. He is still working for Abdullah Gül University as a research assistant.

Lâle BAŞARIR

Lâle Başarır has a PhD from Izmir Institute of Technology and MSc from Architectural Design Computing Program at Istanbul Technical University. She completed the inaugural Graduate Studies Program '09 at Singularity University at NASA

AmesRC in 2009. She currently works as an Assistant Professor at Izmir University of Economics.

Ebru BİNGÖL

Asst. Prof. Dr. Ebru Bingöl teaches at Hatay Mustafa Kemal University, Department of Architecture. She has degrees of Landscape Architecture (Bachelor), Urban Design Expert (Ms) and Architecture (PhD). She has been a guest researcher in TUDelft (Holland), granted by TUBITAK. Her research topics include site, context, public space design.

Gülen ÇAĞDAŞ

Gülen Çağdaş has graduated from Istanbul Technical University, Faculty of Architecture. She was the Coordinator of Architectural Computing Graduate Program between 2000 and 2015 and also Department Head of Informatics at the Institute of Science, Engineering and Technology, ITU between 2006-2018. Her main research area is Architectural Design Computing.

Naz Ecem ÇINARYILMAZ

Received her B.A. degree in History (2015) from Koç University. In the meantime, earned her minor degree in Archaeology and History of Art from the same university. Received M.Sc degree in Architecture History (2019) from Istanbul Technical University. Her main fields of study are: urban hans, Galata and Ottoman architecture.

Meryem Birgül ÇOLAKOĞLU

Birgül Çolakoğlu completed her undergraduate and graduate education in Architecture at Yıldız Technical University Faculty of Architecture, and her doctorate in the field of Computational Design at the Faculty of Architecture of Massachusetts Institute of Technology. Çolakoğlu has been elected as the president of eCAADe for the period 2019-2021. Prof. Birgül Çolakoğlu continues her duty at ITU as the Head of the Architecture Department.

Özgün DİLEK

Özgün Dilek is a Ph.D. candidate at Istanbul Technical University, Department of Industrial Product

Design. Her research interest is based on design ontology and post-industrial design practices.

Vedia DÖKMECİ

Vedia F. Dökmeci is a professor emeritus of Istanbul Technical University, Faculty of Architecture, Urban and Regional Planning Department. She has many publications, 7 books and was involved in numerous professional activities, including design competitions, research projects. In 2001 she established Real Estate Development Master Program at Istanbul Technical University.

Arezki EL HADJ MIMOUNE

Urban architect, lecturer-researcher at CUAT in Ain Témouchent, Algeria, since 2011. He is interested in the Arab-Muslim vernacular architectural heritage. The main research topics include the rehabilitation and tourism processes of the built heritage and the relationship between architecture and tourism.

Bedel EMRE

She graduated from Istanbul Technical University, City and Regional Planning Department in 2015. She completed her master's degree at Mimar Sinan Fine Arts University, Conservation and Renewal Program in 2017 with her thesis focusing on the relationship between archeology, geology and planning. She continues her PhD in Istanbul Technical University Eurasian Earth Sciences. Her academic studies focus on topics such as paleoenvironment, climate change, and geoarchaeology.

Adem Erdem ERBAŞ

He is working at Mimar Sinan Fine Arts University, Faculty of Architecture, Department of City and Regional Planning. He continues his academic studies in the field of sustainability and strategic spatial planning. His research interests mainly focus on the planning issues of the metropolitan city, port cities, port renewal projects, logistics and urban planning, and he has published studies and articles in these topics.

Fatma Heyecan GİRİTLİ

F. Heyecan Giritli completed her undergraduate and graduate studies in Faculty of Architecture, Istanbul Technical University. She had her Ph.d degree in 1982 and became a Professor in 1993. After retiring in 2019, Professor Giritli currently acts as a Thesis advisor in ITU Graduate School of Science, Technology and Engineering.

Emre İLICALI

After graduating from Department of Civil Engineering, Boğaziçi University in 2001, Emre İlicalı had his M.Sc. Degree in Engineering Management at University of New Orleans, LA - USA in 2004. He also has a M.A. degree in Statistics. He is a Ph.D. student in Department of Architecture, Construction Sciences, ITU.

Mustafa Emre İLAL

Mustafa Emre İlal is an Associate Professor at Izmir Institute of Technology. He received his B.Arch from Yıldız TU, M.S. and PhD in Architecture from Carnegie Mellon University. His research interests lie in the intersection of Building Performance, Information Technologies and Computational Design.

Arda İNCEOĞLU

Arda Inceoglu received the B.S. and the M.Sc. degrees in computer engineering from Istanbul Technical University, Istanbul, Turkey, in 2015 and 2018, respectively, where he is currently pursuing the Ph.D. degree in computer engineering. His research interests include cognitive robotics, computer vision, and machine learning.

Malika KACEMI

Lecturer-researcher of architecture at the University of Science and Technology of Oran-Algeria. Responsible for doctoral training "architectural, urban and landscape heritage" and author of several articles that deal with urban planning instruments, the development of coastal areas and built heritage in Algeria.

Çiğdem KAYA PAZARBAŞI

Çiğdem Kaya Pazarbaşı is an associate professor at Istanbul Technical University, Department of Industrial Product Design. Her research focuses on the multiple uses of design knowledge. She has been a senior researcher within the framework of European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant between 2017-2020.

Seda KUNDAK

Seda Kundak (PhD 2006) has been working at Istanbul Technical University, Faculty of Architecture, Department of Urban and Regional Planning. She has been working in the field of risk assessment, vulnerability and resilience at urban scale. She is the Sigma Xi Distinguished Lecturer Award Winner for 2018-2019.

Meltem MARALCAN GÜLMEN

Graduated from Istanbul Technical University (2002), has MSc in History of Art in İstanbul University (2007) and is studying PhD in ITU industrial design department of architectural faculty on history of design. She is currently a lecturer on design history and industrial design in Beykent University.

Elif Belkıs ÖKSÜZ

Elif Belkıs Öksüz is pursuing her research career in the design and development of computer-mediated learning tools and methods. She works on individualized learning tools for basic design education towards computational embodiment. She holds a PhD and MSc in Architectural Design from Istanbul Technical University and a BArch from Mimar Sinan Fine Arts University.

Derya Güleç ÖZER

Assoc. Prof. Dr. Derya Güleç ÖZER, has received B.A. in Architecture from METU in 2004, MA from Gazi University in 2007, and PhD from ITU Architectural Computing Department in 2014, post doctoral studies in MIT, Boston in 2015. She still teaches at İstanbul Technical University, Department of Architecture.

Souria SALEM

Professor of architecture at the University of Science and Technology of Oran-Algeria. Former president of the scientific committee of the department of Architecture and author of several articles dealing with the renewal of the built heritage, Arab-Moorish architecture and collective housing in Algeria.

Amin SHAHRIARY

Amin Shahriary, has received his B.A. degree from Islamic Azad University of Mashhad (2011) and M.A from Istanbul Aydin University, Department of Architecture (2018). He is currently appointed as Head of Kheshtesabz Architecture Group, official supervisor in construction engineering organization of Khorasan, Iran.

Gülname TURAN

Lecturer at Faculty of Architecture, Istanbul Technical University (since 2009); holds a professional degree in industrial design (1999) and Ph.D. in Art History (2009) from ITU; has taught design project and design history-theory courses. She has published papers in international conferences and in journals incl. Design Issues, DAPA and Furniture History. She is currently studying on design history, industrial design, social innovation and crafts.

Filiz UMAROĞULLARI

Filiz Umaroğulları took her M.Arch degree from Institute of Science at Trakya University in 2001. She took her PhD. degree at the same university. Her study fields are building physics, energy efficient buildings, solar energy design for buildings. Since 2011, she is working as Assistant Professor in the Trakya University.

Can UZUN

Can Uzun completed his undergraduate and graduate degree respectively in the Architecture (2012), and in the Architectural Design at ITU (2014). He is currently a Ph.D. student at Istanbul Technical University, Architectural Design Computing Program. His research interests are VR, AR, design cognition, shape grammars and deep learning in architecture.

Seyhan YARDIMLI

Seyhan YARDIMLI, has earned her B.A. degree from MSGSU Department of Architecture in 1984, her M.S and PhD from Trakya University in 1993 and 2001 respectively. Her research interests include ecological building materials, sustainable architecture, heritage and preservation. She is currently teaching at Okan University, Department of Architecture.

Mehmet Ali YÜZER

Mehmet Ali Yüzer is an Associate Professor in the Department of Urban and Regional Planning in ITU. His specializations are industrial zone planning and quantitative methods in planning. He has several publications about these issues in various journals.
