

## 2022 SUBJECT INDEX

17 beta-hydroxysteroid dehydrogenase type 3 .....	233	Cardiovascular risk .....	344, 385
17-OHP level .....	56	Case report.....	221
46,XY disorders of sex development .....	153, 233	CEDD-NET.....	216
5 $\alpha$ -reductase deficiency.....	153	Celiac disease.....	2, 409
ACAN.....	481	Cell location .....	46
Acetazolamide .....	239	Child.....	268, 334, 409
Acromegaly .....	350	Childhood.....	17, 370
Activating variant of <i>TSHR</i> gene.....	114	Children .....	2, 17, 37, 119, 188, 239, 251, 288, 366, 433
Acute lymphoblastic leukemia .....	393	Children and adolescents .....	17
Addison's disease .....	308	China.....	288
Adipocyte .....	179	Choristoma.....	258
Adipocytokines .....	385	Co-formulation .....	10
Adipokine.....	444	Congenital adrenal hyperplasia.....	244
Adolescent.....	324	Congenital disorders of glycosylation.....	275
Adrenal adenoma.....	17	Congenital goiter .....	221
Adrenal crisis.....	244	Congenital hyperinsulinism .....	88
Adrenal insufficiency .....	56, 393	Congenital hypothyroidism.....	46, 453
Adrenal rest .....	258	Constitutional delay in growth and puberty .....	131
Adrenal tumor .....	17	Corticotroph adenoma .....	126
Adrenocortical .....	258	Cortisol.....	393
Adrenocortical carcinoma.....	17	COVID-19 .....	188, 268, 366, 368
Adrenocortical choristoma.....	126	Cushing syndrome .....	102
Adrenocortical tumors .....	17	Cushing's disease .....	29
Adrenocorticotrophic hormone.....	145	<i>CYP21A2</i> .....	56, 145
Adrenocorticotrophic hormone test.....	393	Cyproterone acetate .....	356
Allele frequency.....	293	Deamino arginine vasopressin.....	334
Androgen insensitivity syndrome .....	153	Dehydroepiandrosterone-sulfate .....	393
Androgen receptor gene mutations .....	153	Delayed TSH rise .....	453
Androgens.....	145	Dentinogenesis imperfecta.....	475
Annual incidence.....	172	Diabetes .....	324, 366
Anti-tissue transglutaminase-IgA.....	2	Diabetes mellitus type 1 .....	409
Antropometry.....	444	Diabetic ketoacidosis.....	10, 37, 268, 368
Apoptosis .....	314	Diagnosis .....	350
Arterial hypertension.....	344	Diazoxide .....	88, 275
Autoimmune glandular disease.....	409	Disorder of sex development.....	469
Beta-blocker .....	490	Distance education .....	302
Binge eating disorder .....	179	Dynamic risk stratification .....	196
Bone mineral density .....	433	Dysgerminoma.....	251
<i>BRAF</i> <sup>V600E</sup> mutation .....	196	Early diabetic nephropathy.....	314
Burosumab.....	344	Ectopic adrenal.....	258
C1q/TNF-related proteins.....	179	Electrocardiography.....	37
Cancer predisposition.....	251	Estrogen .....	17
Cardiac arrhythmia.....	37	Etomidate.....	102

## 2022 SUBJECT INDEX

Feminizing precocious pseudo-puberty.....	107	Lateralization.....	29
FGF21.....	433	Left ventricular dimension.....	422
FGF23.....	344	Left ventricular hypertrophy.....	344
Free thyroxine.....	402	Leptin.....	385
Free triiodothyronine.....	402	Letrozole.....	131
<i>GATA-4</i> .....	469	LHRH.....	302
Gender minority youth.....	463	Low birth weight.....	453
Gene expression.....	76	Management.....	370
Genetic mutations.....	88	McCune-Albright syndrome.....	107
Genomic variation databases.....	293	Menstrual suppression.....	463
Glucose metabolism.....	385	Menstrual dysphoria.....	463
Gonad.....	469	Meta-analysis.....	131
Gonadoblastoma.....	251	Metabolic syndrome.....	69, 179
Graves disease.....	409	MIS-C.....	402
Growth charts.....	207	Microcephaly.....	227
Growth retardation.....	339	Midface hypoplasia.....	339
Hashimoto's thyroiditis.....	409	miRNAs.....	76
Heart.....	469	Monogenic diabetes.....	227
Heterotopia.....	258	Nationwide studies.....	216
Heterozygous.....	56	Neonatal diabetes.....	361
HIF-1 alfa.....	314	Neonatal hyperthyroidism.....	114
<i>HSD17B3</i> gene.....	233	Neudesin.....	69
Hyperinsulinism.....	275	New onset.....	288
Hyperkalemia.....	244	Newborn.....	444
Hyperphosphatemic familial tumoral calcinosis.....	239	Next-generation sequencing.....	46
Hypertrophic cardiomyopathy.....	422	Non-autoimmune hyperthyroidism.....	114
Hypoglycemia.....	10, 275	Noonan syndrome.....	422
Hyponatremia.....	244	Novel mutation.....	221
Hypoplastic kidneys.....	227	NSD1.....	356
Hypothyroidism.....	221, 485	Obesity.....	69, 433
Hypothyroxinemia of prematurity.....	453	Odontochondrodysplasia.....	475
Hypoxia.....	314	Osteoporosis.....	370
IDegAsp.....	10	Ovary.....	107
Immune dysregulation polyendocrinopathy enteropathy X-linked syndrome.....	361	Pachydermoperiostosis.....	350
Incidence.....	288	Pandemic.....	188
Indonesian Growth Reference Chart.....	96	Papillary carcinoma.....	119
Infant.....	102	Patellar dislocation.....	481
Insulin aspart.....	10	Pediatric adrenal insufficiency.....	308
Insulin degludec.....	10	Pediatric endocrinology.....	216
Insulin resistance.....	69	Pediatric thyroid cancer.....	196
Ion transport.....	46	Pediatrics.....	179
Juvenile granulosa cell tumour.....	107	Petrosal sinus sampling.....	29, 334
Kidney dysplasia.....	339	Phosphomannomutase 2 deficiency.....	275

## 2022 SUBJECT INDEX

Physical inactivity.....	302	Solid tumor .....	251
Phytoestrogens.....	415	Sotos syndrome.....	356
Pituitary ACTH hypersecretion.....	334	Southeastern Anatolian .....	172
Pituitary adenoma.....	29	Speksin .....	444
Plasma .....	76	<i>SRD5A2</i> gene mutations.....	153
Precocious puberty.....	356, 415, 485	Steroid.....	145
Predictors .....	314	Steroidogenic factor 1.....	26
Premature pubarche.....	385	Stunting.....	96
Prepubertal.....	385	Synacthen stimulation test .....	56
Preterm newborn.....	453	Systematic review .....	334
Primary adrenal insufficiency.....	308	T1D.....	314
Propolis.....	415	Targeted next generation sequencing .....	88
Pseudohypoadosteronism.....	244	Thyroglobulin .....	221
Pseudohypoparathyroidism .....	485	Thyroid.....	119
Pure gonadal dysgenesis .....	251	Thyroid cancer .....	196
q RT-PCR .....	76	Thyroid function.....	402
Quarantine .....	302	<i>TRIP11</i> .....	475
Rare disease .....	475	Tumoral calcinosis.....	239
Rare diseases.....	216	Turkish children.....	207
Rat .....	415	Turkish Variome .....	293
Rebound.....	490	Type 1 diabetes .....	2, 76, 268, 368
Recombinant growth hormone therapy.....	422	Type 1 diabetes mellitus.....	10, 172, 288
Reliability .....	324	Umbilical cord .....	444
Renal disease .....	361	Validity .....	324
Resilience.....	324	Variant evaluation.....	293
Safety.....	131	Vitamin D.....	188
School closures.....	302	WHO Growth Chart .....	96
Sensitivity.....	29	WHO standards.....	207
Short stature.....	131, 227, 481	Withdrawal.....	490
Skeletal dysplasia .....	475	X-linked hypophosphataemia .....	344
<i>SLC26A4</i> .....	46	Xq23 microdeletion.....	339
Small for gestational age .....	481		
Sodium thiosulphate.....	239
