Highlights of this issue

The Effect of Insulin Resistance and Obesity on Low-Density Lipoprotein Particle Size in Children
Mehmet Emre Taşçılar, Tolga Özgen, Murat Cihan, Ayhan Abacı, Ediz Yeşilkaya, İbrahim Eker, Muhiddin Serdar
INSTRUCTIONS TO AUTHORS
coefficient of variation, or 95% confidence limits. For both bioassays and radiomunoassays, it is necessary to include data relating to within-assay and between-assay variability. If all relevant comparisons are made within the same assay, the latter may be omitted.

Statistical analysis should be done accurately and with precision. Please consult a statistician if necessary.

Proofs and Reprints
Proofs and a reprint order are sent to the corresponding author. The author should designate by footnote on the title page of the manuscript the name and address of the person to whom reprint requests should be directed.

The manuscript when published will become the property of the journal.

Page and Other Charges

Archiving
The editorial office will retain all manuscripts and related documentation (correspondence, reviews, etc.) for 12 months following the date of publication or rejection.

Submission Preparation Checklist

As part of the submission process, authors are required to check off their submission’s compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

1. The submission has not been previously published, nor is it before another journal for consideration (for an explanation has been provided in Comments to the Editor).
2. The submission file is in Microsoft Word, RTF, or WordPerfect document file format. The text is double-spaced; uses a 12-point font; employs italics, rather than underscoring (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end. Please do not send the manuscript in docx.
3. Where available, URLs for the references have been provided.
4. Upon acceptance of your manuscript for publication, a completed Copyright Assignment & Affirmation of Originality Form will be faxed to the JCRPE Editorial Office (Fax: +90 212 821 99 27)
5. The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines, which is found in About the Journal.
6. Completed Disclosure of Potential Conflict of Interest Form. The corresponding author must acquire all of the authors’ completed disclosure forms and fax them, together, to the editorial office along with the Author Disclosure Summary.

Copyright Notice

The author(s) hereby affirms that the manuscript submitted is original, that all statement assigned as facts are based on author(s) careful investigation and research for accuracy, that the manuscript does not, in whole or part, infringe any copyright, that it has not been published in total or in part and is not being submitted or considered for publication in total or in part elsewhere.

Completed Copyright Assignment & Affirmation of Originality Form will be faxed to the JCRPE Editorial Office (Fax: +90 212 821 99 27)

By signing this form,
1. each author acknowledge that he/she participated in the work in a substantive way and is prepared to take public responsibility for the work,
2. each author further affirms that he or she has read and understands the "Ethical Guidelines for Publication of Research".

3. the author(s), in consideration of the acceptance of the manuscript for publication, does hereby assign and transfer to the Journal of Clinical Research in Pediatric Endocrinology all of the rights and interest in and the copyright of the work in its current form and in any form subsequently revised for publication and/or electronic dissemination.

Privacy Statement
The names and email addresses entered in this Journal site will be used exclusively for the stated purposes of this Journal and will not be made available for any other purpose or to any other party.

Peer Review Process
1. The manuscript is assigned to an editor, who reviews the manuscript and makes an initial decision based on manuscript quality and editorial priorities.
2. For those manuscripts sent for external peer review, the editor assigns reviewers to the manuscript.
3. The reviewers review the manuscript.
4. The editor makes a final decision based on editorial priorities, manuscript quality, and reviewer recommendations.
5. The decision letter is sent to the author.

The Reviewer is Asked to Focus on the Following Issues:

1. General recommendation about the manuscript
   - How original is the manuscript?
   - Is it well presented?
   - How is the length of the manuscript?
2. Publication timing, quality, and priority
   - How important is the manuscript in this field?
   - Does it present original data?
   - Does it carry priority in publishing?
3. Specific questions regarding the quality of the manuscript
   - Does the title describe the study accurately?
   - Is the abstract informative and clear?
   - Do the authors state the study question in the introduction?
   - Are the methods clear?
   - Are ethical guidelines met?
   - Are statistical analyses appropriate?
   - Are the results presented clearly?
   - Does the discussion cover all of the findings?
   - Are the references appropriate for the manuscript?
4. Remarks to the editor
   - Accepted in its present form
   - Accepted after modest revisions
   - Reconsidered for acceptance after major changes
   - Rejected
5. Remarks to the author
   - What would be your recommendations to the author?
   - Conflict of interest statement for the reviewer (Please state if a conflict of interest is present)
