

FROM THE EDITOR

Dear Colleagues and Friends,

It's a pleasure for me to address you again in our 5th issue. It has been a challenging year for us as the Turkish Endodontic Society worked on 2 important events, the 8th Endodontic Symposium that took place in Adana HiltonSA on May 10–13, 2018 and the APEC (Asian-Pacific Endodontic Confederation) that we will be hosting in April, 2019. The official website of APEC will be opened soon and please mark the dates in your agenda as we hope to see many Turkish participants during this very significant international event. This will be a very good opportunity to show how advanced and successful Turkish Endodontics is and we anticipate your support by a high rate of participation.

The 8th Symposium of the Turkish Endodontic Society was held in Adana in May 2018, with a high participation of our colleagues. We specifically wish to extend our thanks and gratitude to Professor Oguz Yoldas, the Chair of the Department of Endodontics, Cukurova University and his team for their tremendous hospitality and wonderful organization. The rich scientific and social program made this event an unforgettable one for all of us.

In this issue, you will be reading a collection of research and case reports that is the result of the hard work of our colleagues. I wish to take this opportunity to extend my heartiest thanks to all the contributors and wish to emphasize again that the Turkish Endodontic Journal is always awaiting your valuable work.

Have a great summer,

Jale Tanalp

Editor in-Chief
