

2021 SUBJECT INDEX

Beta thalassemia	1	ISAAC	67
Alpha thalassemia	1	Skin-prick test	67
Pathophysiology	1	Peak nasal inspiratory flow	67
Treatment	1	Child	78, 122, 165, 170
Beta thalassemia carrier	8	Covid 19	78
Complete blood count parameters	8	Eating behaviour	78
Beta globin gene mutations	8	Lifestyle changes	78
Hemoglobin electrophoresis	8	Nutritional disorder	78
Hyperthyroidism	18	Dialysis efficiency	86
Methimazole	18	Dialysis filling volume	86
Pediatrics	18, 28	Intraperitoneal pressure	86
Remission	18	Ultrafiltration	86
Relapse	18	CYP11B2	94
Ventriculoperitoneal shunt	28	Newborn	94
Hydrocephalus	28	Primary hypoaldosteronism	94
Infection	28	Salt-wasting	94
Puberty	35	Cystinuria	99
Menarche	35	Cyanide-nitroprusside test	99
Girls	35	Molecular analysis	99
Neutropenia	43	Bone lesion	104
Fever	43	Central diabetes insipidus	104
Chryseobacterium	43	Children	104, 109, 159
Bacteremia	43	Langerhans cell histiocytosis	104
Ophthalmoplegia	47	Sellar erosion	104
Hemolytic uremic syndrome	47	Infectious disease	109
Diffusion restriction	47	Anesthesia	109
Putamen	47	Exogenous obesity	114
Eculizumab	47	Body mass index	114
SARS-CoV-2	51	Body fat percentage	114
COVID-19	51	Diet	114, 154
MIS-C	51	Exercise	114
Rheumatology	51	Acute lymphoblastic leukemia	122
Pediatric intensive care unit	51	Myeloid marker	122
Second degree relative height	60	Epilepsy	131
Short stature	60	Prevalence	131
Target height	60	School-age child	131
Allergic rhinitis in childhood	67	Herpetic whitlow	140

Herpes simplex type -1	140	Phenylalanine	154
Candidemia	140	Family	154
Computed tomography	144	Non-pharmacological treatment	159
Coronal suture	144	Pain management	159
Dermoid cyst	144	Growth hormone.....	165
Magnetic resonance imaging	144	Isolated growth hormone deficiency.....	165
Surgery	144	Growth hormone therapy	165
Rhabdomyolysis.....	147	Hematological parameters	165
Inborn errors of metabolism	147	Mydriatics.....	170
Diagnosis	147	Cyclopentolate.....	170
Phenylketonuria	154	Ophthalmic solutions	170
Mealtime	154	Dilatation.....	170
Parents	154
