EDITORIAL

Dear Colleagues,

The second issue of Comprehensive Medicine in 2024 includes 12 articles from different departments. In this issue, published articles consist of a review and a case report in anesthesiology, original articles in ophthalmology, orthopedics and traumatology, cardiology, neurology, gynecology and obstetrics and radiology.

We hope that the review and original articles in this issue will make significant contributions to researchers and literature. The number of citations and impact factor of Comprehensive Medicine, which constantly renews itself scientifically and technically, is increasing regularly. Please always consider Comprehensive as your own journal, submit your evidence based articles to the journal, do a timely and rigorous process as a reviewer, read the articles published in the journal and quote the articles of the journal.

Respectfully yours,
