## AIMS AND SCOPE

Istanbul Kanuni Sultan Süleyman Medical Journal is the official publication of Kanuni Sultan Süleyman Training and Research Hospital. It is published regularly, three times a year, in January, May, September as hardcopy and an electronic journal.

The journal was published by Bakırköy Obstetrics and Gynecology Hospital in 1990s.

JOPP (gynecology obstetrics, pediatric and pediatric surgery) has reached the status of the journal of peer-reviewed journal in 2009. And it is publishing as Istanbul Kanuni Sultan Süleyman Medical Journal since 2014.

The journal publishes original research articles including gynecology, obstetric, pediatrics, pediatric surgery and basic medical sciences, case reports, reviews and announcements of panels and congresses.

The language of the journal is Turkish and English. It is a peer-reviewed journal and does not charge any fee from readers or authors. All published articles are open access.

The aim of Istanbul Kanuni Sultan Süleyman Medical Journal is to provide students, who are educated in the field of medicine in all fields of medicine, and researchers to all physicians who are in the field of health and information about disease treatment and prevention methods.

In addition, by conducting an objective evaluation within the framework of the ethical rules of the journal, the consultant aims to enable the reviewers to transfer their experiences to the authors, to give the author a perspective on how to write a scientific article, and to contribute to the elimination of the scientific value of the articles published in our country.

Istanbul Kanuni Sultan Süleyman Medical Journal is to publish original researches on international level qualified, continuous and general medicine and periodically evaluated at the highest level both clinically and scientifically according to the konusunda double-blind, system for the consultant and writer. In addition to this, they include collections covering basic innovations about education, letters to the editor, and case reports.

Our journal was published by Bakırköy Obstetrics and Gynecology Hospital in 1990s.

JOPP (gynecology obstetrics, pediatric and pediatric surgery) has reached the status of the journal of peer-reviewed journal in 2009. And it is publishing as Istanbul Kanuni Sultan Süleyman Medical Journal since 2014.

Yayınlanma Tarihi/Online Publication Date: Ocak 2022/January 2022 ISSN: 2148-273X E-ISSN: 2667-7458

Yılda üç kez yayımlanan süreli yayındır. / International periodical journal published three times in a year.

Formerly: JOPP (Gynecology Obstetrics Pediatrics and Pediatric Surgery Journal) | ISSN: 1308-6715

This journal has been indexed in TÜBİTAK ULAKBİM TR Dizin, Türk Atıf Dizini (Turkish Citation Index) since September of 2011 and EBSCO since September of 2020.

### Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

Open Access Policy is based on the rules of the Budapest Open Access Initiative (BOAI) <http://www.budapestopenaccessinitiative.org/>. By “open access” to peer-reviewed research literature, we mean its free availability on the public internet, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited.

As publisher of the Istanbul Kanuni Sultan Süleyman Medical Journal, Kare Publishing House does not demand any subscription fee, publication fee or similar payment for the access into electronic resources.

### Permission Requests

For all published articles, Istanbul Kanuni Sultan Süleyman Medical Journal accepts the “Creative Commons Attribution License” (Attribution 4.0 International CC BY)

This license lets others distribute, remix, adapt, and build upon your work, even commercially, as long as they credit you for the original creation. This is the most accommodating of licenses offered. Recommended for maximum dissemination and use of licensed materials.

Open access is an approach that reinforces interdisciplinary development and encourages cooperation between different disciplines. For this reason, IKSST Journal contributes to its field by offering more access to its articles and a more transparent review process.

## CONTENTS / İÇİNDEKİLER

### ORIGINAL INVESTIGATIONS / ÖZGÜN ARAŞTIRMALAR

- 1** Comparison of Radiofrequency Thermocoagulation Alone with Radiofrequency Thermocoagulation and Steroid Injection in Combination for the Treatment of Lower Back Pain  
Bel Ağrılı Hastalarda Tek Başına Radyofrekans Termokoagülasyon ile Radyofrekans Termokoagülasyon ve Steroid Enjeksiyonu Kombinasyonunun Etkinliğinin Karşılaştırılması  
Balkan Şahin, Salim Katar, Utku Adılay, İlhan Aydın, Melih Üçer
- 8** Evaluation of Clinical and Molecular Findings in a Group of Turkish Individuals with Marfan Syndrome  
Bir Grup Türk Marfan Sendromlu Bireyde Klinik ve Moleküler Bulguların Değerlendirilmesi  
Nihat Buğra Ağaoğlu, Özlem Akgün Doğan
- 18** Relationship between MMP-9 Gene Expression in Adipose Tissue and Morbid Obesity  
Adipoz Dokuda MMP-9 Gen Ekspresyonu ile Morbid Obezite Arasındaki İlişki  
Gülşah Koç, Ahu Soyocak, İbrahim Uğur Çalış, Burak Kankaya, Didem Turgut Coşan, Halil Alış
- 23** Is WHO 2010 Pathological Classification a Guide for Neuroendocrine Tumors?  
2010 DSÖ Patolojik Sınıflandırması Nöroendokrin Tümörler için bir Kılavuz mudur?  
Levent Eminoğlu
- 27** Effectiveness of Zero-Angle Gastrojejunostomy Anastomosis Technique Applied to Pancreaticoduodenectomy on Delayed Gastric Emptying  
Pankreatikoduodenektomide Sıfır Açılı ile Yapılan Gastrojejunostomi Anastomoz Tekniğinin Mide Boşalım Üzerine Etkinliği  
Alpen Yahya Gümüşoğlu, Hamit Ahmet Kabuli, Sezer Akbulut, Kıvanç Derya Peker, Serhan Yılmaz, Mehmet Karabulut, Gökhan Tolga Adaş
- 35** What Should Be the Optimum Biopsy Time for *Helicobacter Pylori* in Upper Gastrointestinal System Bleeding Due to Peptic Ulcer?  
Peptik Ülserle Bağlı Üst Gastrointestinal Sistem Kanamalarında *Helikobakter Pylori* için Optimum Biyopsi Zamanı Ne Olmalı?  
Cemal Seyhun, Mehmet Abdussamet Bozkurt, Bahadır Kartal
- 43** Potential Biomarkers in the Diagnosis of Hemophagocytic Syndrome in COVID-19 Patients  
COVID-19 hastalarında Hemofagositik Sendrom Tanısında Potansiyel Biyobelirteçler  
Barış Boral, Erdiñç Gülümsek, Hilmi Erdem Sümbül, Bilge Sümbül, Akkan Avcı
- 52** Konservatif Yönetilen Ağır Preeklampitik Gebeliklerde Fetal Büyüme Kısıtlılığının Maternal ve Fetal Sonuçlar Üzerine Etkisi  
Outcomes of Expectantly Managed Pregnancies with Fetal Growth Restriction and Severe Preeclampsia  
Deniz Kanber Açar, Salim Sezer, Özge Özdemir
- 56** Adenoidektomi, Tonsillektomi ve Adenotonsillektomi Planlanan Pediatrik Hastalarda Ortalama Trombosit Hacmi, Nötrofil/Lenfosit Oranı, Trombosit/Lenfosit Oranı ve Erken Postoperatif Anestezi Komplikasyonları  
Mean Platelet Volume, Neutrophil/Lymphocyte Ratio, Platelet/Lymphocyte Ratio, and Early Postoperative Anesthesia Complications in Pediatric Patients Scheduled for Adenoidectomy, Tonsillectomy, and Adenotonsillectomy  
Şule Batçık, Leyla Kazancıoğlu

## İÇİNDEKİLER / CONTENTS

- 63** Üst Gastrointestinal Sistem Kanamalarında Endoskopik Tanılara ve Forrest Ülser Gruplarına Göre Kan Üre Nitrojen ve Hematolojik Parametrelerin Önemi  
The importance of blood urea nitrogen and hematological parameters according to endoscopic diagnoses and Forest Ulcer Groups in Upper Gastrointestinal System Bleeding  
Kader Irak, Memduh Şahin, Halil Şahin, Ali Rıza Köksal, Hüseyin Alkım, Canan Alkım
- 70** Pediatrik Popülasyonda, Endotelial Hücre Yoğunluğunun ve Morfolojisinin, Topografik Ön Segment Parametreleri ile İlişkisi  
Relationship of Endothelial Cell Density and Morphology with Topographic Anterior Segment Parameters in Pediatric Population  
Sadık Etkay Bayramoğlu, Mehmet Erdoğan, Kübra Sarici, Gülhumar Artıç, Aykut Özdemir, Nihat Sayın
- 77** Radiation-Induced Pancreatic and Hematologic Injury in Gastric Tumors  
Gastrik Tümörlerde Radyasyona Bağlı Pankreatik ve Hematolojik Hasarlanma  
Gülşen Pınar Soydemir, Esengül Koçak Uzel
- 85** Pathological View of Cardiac Rupture and Myocardial Infarction  
Kardiyak Ruptür ve Myokard Enfarktüslerine Patolojik Bakış  
Taner Daş, Aytül Buğra
- 91** Travmatik Tip III Akromiyoklaviküler Eklem Çıkığı Tedavisinde Kanca Plak ile Tespit İdeal Bir Tedavi Yöntemi Midir?  
Is Hook Plate an Ideal Method in the Treatment of Traumatic Type 3 Acromioclavicular Joint Dislocation?  
Bülent Kılıç, Erdal Eren
- 97** Role of Platelets and Indices in the Clinicopathological Features of Papillary Thyroid Carcinoma  
Papiller Tiroid Karsinomunun Klinikopatolojik Özelliklerinde Trombositler ve İndekslerin Rolü  
Serhan Yılmaz, Hakan Bölükbaşı, Aziz Ocakoğlu, Engin Okan Yıldırım, Mehmet Abdussamet Bozkurt

## CASE REPORT / OLGU SUNUMU

- 104** Farklı Şikâyetlerle Başvuran İki Adet Sistemik Kedi Tırmağı Hastalığı Olgusu  
Two Cases of Systemic Cat Scratch Disease Presenting with Different Complaints  
Burcu Çil, İlknur Kurt, Sümeyra Doğan, Fatma Deniz Aygun
- 108** Laparoscopic Management of Fitz-Hugh-Curtis Syndrome as a Result of Genital Tuberculosis in a Virgin Adolescent Girl  
Adölesan Hastada Genital Tüberküloz İlişkili Fitz-Hugh-Curtis Sendromuna Laparoskopik Yaklaşım  
Ecem Eren, Cihan Kaya, İsmail Alay, Fırat Halil Baytekin
