

## 2019 SUBJECT INDEX

1 $\alpha$ hydroxylase.....	34	Delayed puberty.....	444
21-hydroxylase deficiency.....	41	Diabetes team.....	70
25-hydroxyvitamin D.....	220	Diabetic nephropathy.....	157
25(OH) vitamin D.....	181	Diagnosis.....	4
46,XX disorders of sex development.....	24, 196	Diastolic function.....	61
ABCC8 mutation.....	82	Diazoxide.....	219
Acid-labile subunit deficiency.....	432	Disorder of sexual differentiation.....	211
Adolescent.....	247	Duplication.....	306
Adolescent beliefs.....	118	Early.....	341
Adult height.....	234	Early menarche.....	234
AGPAT2.....	319	Echocardiography.....	61
<i>ALPL</i> gene.....	306	Education.....	189
AMH.....	287	Enzyme replacement therapy.....	306
Androgen insensitivity syndrome.....	24	Epicardial fat thickness.....	61
Androgen receptor gene mutations.....	24	Estradiol.....	388
Antithyroid drug.....	165	Estrogen.....	395
Aromatase deficiency.....	196	Etidronate.....	311
Asthma.....	270	Family conflict.....	118
Auto-antigen.....	55	Fat biology.....	319
Autoimmune thyroiditis.....	132	Final adult height.....	227
Berardinelli-Seip syndrome.....	319	<i>GALNT3</i> .....	94
Biomarker.....	157	Gene mutation.....	400
Birth weight.....	125	Generalized arterial calcification.....	311
Body cell mass.....	46, 366	Genetic testing.....	88
Bone density.....	439	Genotype.....	41
Bone turnover.....	110	GH therapy.....	253
Borjeson-Forssman-Lehmann syndrome.....	419	<i>GH1</i> .....	426
Brain injury.....	374	Glomerular filtration rate.....	46
Cabergoline.....	150	Glucose.....	125
Cardiovascular risk.....	262	Glucose metabolism.....	350
Carotid intima media thickness.....	61	Glycated hemoglobin.....	350
Central precocious puberty.....	227	Glycemic variability.....	189
Child.....	262	Graves' disease.....	165
Childhood.....	247	Growth.....	104
Children.....	82, 132, 150, 157, 189, 202, 350, 374, 395, 410	Growth hormone.....	426
Cholesterol.....	270	Growth hormone deficiency.....	253, 329, 419
Cleidocranial dysplasia.....	301	Growth hormone therapy.....	329
Clinical management.....	400	Growth hormone treatment.....	350
Clinical phenotype.....	24	Gynecomastia.....	388
Congenital adrenal hyperplasia.....	14, 41, 61	Haemophilia.....	173
Congenital generalized lipodystrophy.....	319	Hashimoto's thyroiditis.....	410
Congenital hyperinsulinism.....	82, 400	Hashitoxicosis.....	165
Congenital hypothyroidism.....	240	HbA1c.....	70, 358
Congenital portosystemic venous shunt syndrome.....	207	Hyperlipidemia.....	366
Continuous glucose monitoring.....	189	Hyperparathyroidism.....	88
Cord blood.....	125	Hyperphosphatemia.....	94
<i>CYP19A1</i> gene.....	196	Hypertension.....	173
<i>CYP27B1</i> gene.....	34	Hyperthyroidism.....	207
Cystatin C.....	46	Hypogonadism.....	110, 419
Deficiency.....	220	Hypogonadotrophic hypogonadism.....	444

## 2019 SUBJECT INDEX

Hypophosphatasia.....	306	Neonatal hypopituitarism.....	4
Hypophysis.....	4	Neonatal screening program.....	240
Hypothalamus.....	4	Neuron-specific enolase.....	374
IGF1/IGFBP3 molar ratio.....	253	Newborn.....	240
<i>IGFALS</i> gene mutation.....	432	Newborn screening.....	14
Impaired hypoglycemia awareness.....	189	NHANES.....	270
Impaired liver enzymes.....	366	Non-compliance.....	118
Inappropriate antidiuretic hormone syndrome.....	202	Novel mutations.....	341
Infancy.....	287	Novel variants.....	211
Infant.....	311	Nutrition.....	141
Inherited 1q deletion.....	88	Nutritional thrift.....	449
Insulin.....	125	Obesity.....	46, 76, 173, 234, 247, 262, 270
Insulin resistance.....	262, 270, 366	Onset.....	341
Insulin sensitivity.....	350	Osteoclast.....	439
Insulin treatment.....	278	Osteopetrosis.....	439
Insulin-like growth factor type-1.....	293	Osteoporosis.....	110
Insulin-like growth factor type-1 receptor.....	293	Over-the-counter drugs.....	141
Intrauterine discordancy.....	293	Overweight.....	247
Isolated growth hormone deficiency.....	426	Paediatrics.....	219, 329
Jordan.....	358	Pericardial effusion.....	219
Kabuki syndrome.....	219	Perinatal form.....	306
Ketoacidosis.....	374	<i>PHF6</i> .....	419
KISS1R.....	444	Pituitary.....	150
Kisspeptin.....	444	Polymorphisms.....	55
KNHANES.....	234	Polyneuropathy.....	319
Left ventricular function.....	61	Postnatal growth.....	293
Left ventricular mass index.....	61	Postnatal weight gain.....	449
Leuprolide acetate.....	227	Prader-Willi syndrome.....	253
Leydig cell hypoplasia.....	211	Precocious puberty.....	100
<i>LHCGR</i> gene.....	211	Premature thelarche.....	287
Lipid.....	270	Prematurity.....	104
Lipoprotein.....	270	Prevalence.....	76
Liver.....	395	Primary IGF-1 deficiency.....	432
Macroadenomas.....	150	Primary school children.....	181
Magnesium.....	311	Prolactin.....	150
Marrow expansion.....	110	Prostaglandin I2.....	207
McCune-Albright syndrome.....	100	Pubertal progression.....	227
Meta-analysis.....	55	Puberty.....	388
Metabolic control.....	358	Pulmonary arterial hypertension.....	207
Metabolic syndrome.....	173, 262	Radioactive iodine.....	165
Microadenomas.....	150	Random luteinizing hormone.....	227
Mini-puberty.....	287	Ratio.....	388
Mitral deceleration time.....	61	Renal injury.....	262
MMP.....	157	Resistance.....	118
MODY.....	82	rhGH treatment.....	419
Monitoring.....	227	Rickets.....	141
Mosaicism.....	24	Risk factors.....	247
Mutation.....	439	RUNX2.....	301
Myocardial function.....	410	S100B.....	374
Neonatal cholestasis.....	100	Scale development.....	278

## 2019 SUBJECT INDEX

School age children .....	76	Thyroid hormones .....	240
Sclerosis .....	439	Thyrotoxicosis .....	165
Second-tier .....	14	TIMP .....	157
Seipinopathy .....	319	Tolvaptan.....	202
Self-management .....	278	Total thyroidectomy.....	165
Serum uric acid concentration.....	262	Treatment.....	4, 311
Severe obesity .....	341	Tri-ponderal mass index .....	366
Severe short stature.....	301	Tumoral calcinosis.....	94
Shear wave elastography .....	132	Turkey .....	76
Short stature.....	234, 329, 426, 432	Turner syndrome.....	88, 329, 395
Signs of Y-chromosomal influence.....	88	Type 1 diabetes .....	55, 70, 118, 189, 278, 358
Small for gestational age.....	104, 253, 293, 329, 449	Type 1 diabetes mellitus .....	157, 374
Socioeconomic status .....	358	Vaspin .....	125
Speckle tracking echocardiography.....	410	Vitamin D.....	34, 220
Steroid.....	141	Vitamin D deficiency .....	181
Steroid profiling.....	14	Vitamin D dependent rickets.....	34
Stoss therapy .....	141	Vitamin D insufficiency .....	181
Surgery.....	150	Vitamin D levels .....	181
Telehealth.....	70	Wheezing .....	270
Term newborn.....	41	X-inactivation .....	419
Testosterone .....	388	Zinc transporter 8 autoantibody .....	55
Thalassemia major .....	110		
Thyroid.....	132
