

FROM THE EDITOR

Dear Friends,

Welcome to the 4th issue of the Turkish Endodontic Journal. As you all know, this has been an active year for the Endodontic Community. The 7th International Symposium of the Turkish Endodontic Society was held between May 11–14 in Acapulco Hotel, Girne. This was a very important occasion for our colleagues as leading names in the field delivered knowledge on the important and emerging information in our discipline. The Symposium was further supported by a hands-on-course organized by Güney Akademi. On behalf of the Turkish Endodontic Society, I wish to extend my deepest gratitude to all national and international guests who made this event an unforgettable one for the endodontic community.

The 18th biennial congress of the European Society of Endodontology was held in Brussels, Belgium in September 14–16, 2017. We were honored to see many members of the Turkish Endodontic Society participate in this very important scientific meeting as presenters, chairpersons as well as audience. In the meantime, the Turkish Endodontic Society was kindly offered a desk where information on the upcoming APEC 2019 congress could be delivered to the congress delegates.

The Turkish Endodontic Journal is determined to reach its goal to be included in the Ulakbim Index in the very near future and once again I wish to remind you that your valuable support is the greatest contribution to us in accomplishing this goal. I wish all of you a beautiful and successful autumn and hope to meet you in our next issue.

Jale Tanalp

Editor-in-Chief
