

## FROM THE CHAIRMAN

Dear colleagues,

I take great pleasure in being able to address you in the second issue of our journal, the publication of which is a source of pride for me. Furthermore, I find it meaningful that the timing of its publication is immediately before our congress which will be held between May 26 and 29, 2016. I thank our valuable researchers who contributed to our journal by submitting their studies and wish that they continue their support increasingly. I also owe thanks to Ali Cangül and Kare Publishing for their professional attitudes and their contributions regarding the design and publication of our journal in line with international standards. We have taken all the necessary steps so that our journal will appear on international indexes, and we have obtained our ISSN and DOI numbers. We will have our place in TUBITAK's list at the end of our first year of publication. By including a great number of scientists from other countries among the reviewers of our journal, we wish to have a stronger position in the international arena.

As you know, our society has undertaken important international activities. 2018 IFEA (International Federation of Endodontic Association) congress will be held in Istanbul. This will be immediately followed by APEC (Asian Pacific Endodontic Confederation), which will also be held in our country. I have no doubt that we will successfully accomplish these activities with the contributions from our valuable colleagues. I think the prestige of our society in the international arena will further increase owing to this journal. Wishing to be able to reach you in our next issues, I extend my regards on behalf of our Board of Directors.

Yours sincerely,

**Prof. Faruk Haznedaroğlu, M.D.**

**Chairman of Turkish Endodontic Society**
