

In the article by Kahraman et al., entitled “Perceived stress level is associated with coronary artery disease severity in patients with ST-segment elevation myocardial infarction” that was published in the Archives of the Turkish Society of Cardiology (2020[5]: 494-503; DOI: 10.5543/tkda.2020.30020), third citation in the reference list was incorrect and the authors wanted to add a new source as the fourth citation. Authors’ requests were evaluated and accepted by the Editorial Board. Thus, the article has been corrected accordingly and updated in the journal’s archive.

You may access the updated version of the article via DOI: 10.5543/tkda.2020.30020
